

Tomlinson Equine

Ambulatory Artificial Insemination Packages 2024

Prices shown are exclusive of VAT.

Artificial Insemination Packages:

Fresh/Chilled Semen:

- Per Cycle £400 per cycle

Frozen Semen:

- Per Cycle (Including 2 days stay (max 48hrs) at Tomlinson Equine Stud for insemination)
(The mares will require negative pre entry tests for Strangles, EIA, in addition to CEM and EVA) £531.58 per cycle

Non-Insemination Cycle Fee

- (In the event your mare is not inseminated due to an abnormal cycle or semen arrival) £226.50 per cycle

AI Fees Include:

- Pre and post insemination scans (up to heart-beat detection)
- Routine reproductive drugs
- 1 x Induction Agent (not Deslorelin or Ovuplant)
- 1 x Insemination

AI packages only applicable to mares already cycling normally in the breeding season. Extra breeding scan charges will apply if this is not the case e.g. in spring transition.

AI Fees DO NOT Include:

- Visit fees - £1.90 per mile
- Stallion collection/Stud fees
- Sedation
- Lavage - £64.21 + Cost of fluid used
- Uterine Infusion - £39.62 + Cost of drugs used
- Caslick Procedure/ repair
- Twin reduction
- Pre entry tests

Embryo Transfer:

- Recipient Mare Synchrony (charged per scan on an ambulatory basis) £55.53 per scan
- Uterine Flushing & Embryo Search (done on a walk-in basis at Tomlinson Equine) £315.79 per flushing
- Transfer of an Embryo into Recipient mare (done on a walk-in basis at Tomlinson Equine) £226.32 per transfer

Non-routine broodmare and donor mare procedures (such as uterine lavages & treatments) are carried out only when necessary, prices are available on request.

Foetal Sexing £105.26

OPU / ICSI

OPU & ICSI services £POA

These prices are to be taken in conjunction with the Terms & Conditions (available on request). Prompt Payment Discount of 5% shall only be applied to existing eligible clients with no outstanding balances.
