 Is the mare insured? YES / NO Is the pregnancy insured? YES / NO Will the foal be insured? YES / NO
 We will always try to save both the mare and foal but in unfortunate circumstances where a choice needs to be made, who has priority? MARE / FOAL
 Do you wish to be contacted at any time (including middle of the night) in the case of an emergency? YES / NO
 Any additional emergency contact numbers:
If unreachable or do not wish to be contacted, do you give us permission to:
 Call an on call vet (approx. £200+) Perform an assisted vaginal delivery, inc. general anaesthesia (approx. £1000) Refer to a hospital eg. for caesarean (approx. £3500-£8000)

ALL PRICING IS EX VAT & APPROXIMATE

We usually place a foaling alarm (stitched into vulva) about 2-4 weeks prior to foaling. The cost of this is charged as an extra to the client. Mares are brought into stables at night for around 2-4 weeks prior to foaling & the mare and foal can continue this livery until the foal is 6-8 weeks old, depending on limb development. Extra livery charges apply during this time.

Tomlinson Equine will make every effort to ensure that vaccines are kept up to date, however in the event that an oversight should occur, and this section of the form is found to be incomplete Tomlinson Equine are not responsible for any costs incurred as a result.

- Please tick if you are happy for Tomlinson Equine to use photos of your horse on their social media pages.
- I consent that Tomlinson Equine can add my email address to their mailing list to receive information about future offers and services.

Declaration: I have read and understand the Price List and Tomlinson Equine Terms and Conditions.

- Tomlinson Equine has specific health requirements for **ALL HORSES/EMBRYOS/SEMEN** being booked in with us. Please ensure test results are sent to the Tomlinson Equine office **before** arrival at the centre.
- Tomlinson Equine Stud employs Tomlinson Equine Limited to carry out routine and emergency veterinary work. Some medications can be licensed for use in other species or humans and may be prescribed in accordance with the cascade.
- All horses will be clinically examined upon entry to the centre. Any horse showing any signs of clinical disease will be isolated (until disease status is confirmed) or not admitted into the centre. Isolation will be at the cost of the client (with pre-notification) and Tomlinson Equine reserve the right to isolate as they see fit.

I, the undersigned, hereby certify that:

- As far as can be determined, the animal has remained on a premises where no clinical cases of the following diseases have occurred during the past 90 days prior to the horse arriving at Tomlinson Equine Stud:
 - Contagious Equine Metritis (CEM)
 - Equine Viral Arteritis (EVA)
 - Equine Influenza
 - Strangles
 - Equine Herpes (Abortion or Neurological)
 - Ringworm
 - Glanders
 - Surra
 - African Horse Sickness
 - Rabies
 - Anthrax
- The animal is up to date with equine influenza and tetanus vaccinations (including a completed primary course).
- A blood sample was taken from the animal (within 30 days of their arrival date) and sent to a laboratory with negative results for the following tests:
 - Equine Infectious Anaemia (EIA)
 - Strangles
- Negative EVA Blood results (after the 1st January) have been obtained from the animal.

For breeding animals:

- Negative CEM Swab results (after the 1st January) have been obtained from the animal (a clitoral swab for the mare and 3 separate swabs – Urethra, Urethral Fossa & Penile Sheath for a stallion).
- In the case of pregnant mares, please confirm that she is fully vaccinated against EHV1,4 (Equine Herpes Virus) (due in months 5,7 & 9 of pregnancy).
- The animal has not covered naturally within 30 days of arrival and the CEM & EVA tests must be taken 15 days after the last natural covering.
 - Mares using natural covering must provide a declaration of health for mare and stallion.

8. FOR CASHFLOW PURPOSES. WE REQUIRE THAT ALL OUTSTANDING BALANCES BE PAID IN FULL BEFORE THE HORSE LEAVES.
