Please tick if you are happy for Tomlinson Equine to use photos of your horse on their social media pages.
I consent that Tomlinson Equine can add my email address to their mailing list to receive information about future offers and services.
Declaration: I have read and understand the Price List and Tomlinson Equine Terms and Conditions.

- Tomlinson Equine has specific health requirements for ALL HORSES/EMBRYOS/SEMEN being booked in with us. Please ensure test results are sent to the Tomlinson Equine office before arrival at the centre.
- Tomlinson Equine Stud employs Tomlinson Equine Limited to carry out routine and emergency veterinary work. Some medications can be licensed for use in other species or humans and may be prescribed in accordance with the cascade.
- All horses will be clinically examined upon entry to the centre. Any horse showing any signs of clinical disease will be isolated (until disease status is confirmed) or not admitted into the centre. Isolation will be at the cost of the client (with pre-notification) and Tomlinson Equine reserve the right to isolate as they see fit.

### I, the undersigned, hereby certify that:

- 1. As far as can be determined, the animal has remained on a premises where no clinical cases of the following diseases have occurred during the past 90 days prior to the horse arriving at Tomlinson Equine Stud:
  - a) Contagious Equine Metritis (CEM)
  - b) Equine Viral Arteritis (EVA)
  - c) Equine Influenza
  - d) Strangles
  - e) Equine Herpes (Abortion or Neurological)
  - f) Ringworm
  - g) Glanders
  - h) Surra
  - i) African Horse Sickness
  - j) Rabies
  - k) Anthrax
- 2. The animal is up to date with equine influenza and tetanus vaccinations (including a completed primary course).
- 3. A blood sample was taken from the animal (within 30 days of their arrival date) and sent to a laboratory with negative results for the following tests:
  - a. Equine Infectious Anaemia (EIA)
  - b. Strangles

4. Negative EVA Blood results (after the 1<sup>st</sup> January) have been obtained from the animal.

### For breeding animals:

- 5. Negative CEM Swab results (after the 1<sup>st</sup> January) have been obtained from the animal (a clitoral swab for the mare and 3 separate swabs Urethra, Urethral Fossa & Penile Sheath for a stallion).
- 6. In the case of pregnant mares, please confirm that she is fully vaccinated against EHV1,4 (Equine Herpes Virus) (due in months 5,7 & 9 of pregnancy).
- 7. The animal has not covered naturally within 30 days of arrival and the CEM & EVA tests must be taken 15 days after the last natural covering.

7b. Mares using natural covering must provide a declaration of health for mare and stallion.

8. FOR CASHFLOW PURPOSES. WE REQUIRE THAT ALL OUTSTANDING BALANCES BE PAID IN FULL BEFORE THE HORSE LEAVES.

Tomlinson Equine Stud employs Tomlinson Equine Limited to carry out routine and emergency veterinary work. Some medications used can be licensed for use in other species or humans and may be prescribed in accordance with the cascade.

# CHECK WITH TOMLINSON EQUINE REGARDING ANY LAB REQUIREMENTS OR EXTRA TESTING REQUIREMENTS FOR EXPORT PURPOSES, INCL. SEMEN FREEZING.

I have read and agree to Tomlinson Equine's Terms and Conditions.
